# WHEN PROBLEMS INSPIRE SOLUTIONS, GENIUS IS BORN

What do we mean when we say: **Crypto. Made. Eazy?**

*For too many people, crypto is hard. It can be difficult to learn, confusing to understand and laden with risk.*

EazyBot was born from this struggle & a community in trouble during a massive market drop. Unwilling to allow his friends to sit in frustration & panic, CEO & Founder, Mohamed Ali went to work.

EazyBot is special - powered by amazing technology & brilliant strategy. However, what makes EazyBot most special to us is the people and the problems it was designed to solve.

We believe crypto is the future...and it doesn't have to be hard.  
**So we made it, Eazy.**
